

**The Friends of Crex Endowment Fund**

The Friends of Crex was established in 1984 for the purpose of assisting with wildlife education and wildlife management activities at Crex Meadows and the other Glacial Lake Grantsburg properties. We initially concentrated on the wildlife education activities. Our immediate goal was to provide the volunteer and financial assistance necessary to expand the wildlife education program. Our ultimate goal was to provide funding for construction of the Crex Meadows Wildlife Education Center.

The wildlife education program has grown substantially due to our efforts. Working together with the Crex staff, we were able to substantially increase visitor services and education programs. Our crowning achievement came with the completion of the Crex Meadows Wildlife Education Center in April 2002. We now have a well-established wildlife education program and a first-class education facility at Crex.

**Changing needs**

Having accomplished our initial goals, we are now prepared to enter the next stage of our evolution. We have two major goals for the immediate future:

1. to insure that the Wildlife Education Center is adequately staffed and fully operational.
2. to offer donors the opportunity to fund wildlife management activities, including land acquisition, at Crex Meadows and the other GLG properties.

**The Friends of Crex Endowment Fund:**  
A perpetual source of income
